INDIANA LIBRARY AND HISTORICAL BOARD

John P. Goodwin, Brookville, President

Lyman S. Ayres, Indianapolis

Mrs. George K. Bridwell, Bloomington, Secretary

Lorenz Schumm, LaPorte

M. O. Ross, Indianapolis

INDIANA STATE LIBRARY ADMINISTRATIVE STAFF

Harold F. Brigham, Director

Hazel W. Hopper, Indiana Division

Mary Glaska, Financial Secretary

Frances Nakarai, Loan Division

Oscar C. Everhart, Acquisitions and Ass't to
Director for Building and Properties

Margaret L. Donnell, Reference Division

Margaret Pierson, State Archivist and
Ass't to Director for Personnel
Harold J. Burton, Newspaper Section

Katherine A. Barnett, School Libraries
and Teaching Materials, in cooperation
with the State Department of Public
Instruction

Nellie M. Coats, Catalog Division

Carolynne Wendel, Acting Head, Genealogy
Division

Hazel B. Warren, Certification and Placement

Elizabeth Wishard, Service to the Blind

Harriet I. Carter, Extension Division

Lila Brady, Editor, *Library Occurrent*

The *Library Occurrent* is issued in March, June, September and December. It is distributed free of charge in Indiana. Entered as second class matter June 13, 1911, at the postoffice at Indianapolis, Indiana, under the act of July 16, 1894. Acceptance for mailing at special rate of postage provided in Sec. 1103, Acts of October 3, 1917, authorized on June 29, 1918.

YOU AND YOUR JOB

by

Lillian M. Gilbreth

I'm so glad to be back in Indiana where I spent a large part of the time for many years up at the Purdue University, and I am so happy to be with a group of librarians and trustees of libraries. I love libraries, so that I feel at home and very happy to be here.

I've selected the subject, "You and Your Job." I'm not going to advise you on your job. I'm not going to tell you how to do it any better because I don't think you could do it any better.

What I am going to do is give some illustrations of what I'm trying to say from your own field, really as a tribute to you; because I'm one of the many, many people in this country who really feel deep gratitude to what you have done for us as a country and for us as individual people and I'm just proud and happy to have a chance getting time to tell you that.

Questioning Method

You and your job. In any field of industrial engineering we use, of course, always the questioning method and we just feel that through the questioning method we gradually get to know what the problems are; and really in many cases, the questions are more important than the answers.

It's the questioning method I will try to outline and to use as I talk a little about this problem of jobs and of people. For the first place we always ask, "Why?" I suppose it's because it gives us a chance to say, "Is this thing which we are doing necessary?" And I suppose like all the rest of us, whatever our job, you do have moods once in a while when you think,

"Is this job really necessary?" "Am I really necessary for this job?" and "Is this job really necessary to me?"

Well, of course, I can answer; any of us can answer that the job you do is necessary and it must be a very great satisfaction to you to see how a job is changing for the better, I think, expanding in its importance; how the people who are coming into the profession are changing, I suppose, like all other people, sometimes for the worse, sometimes for the better. It's not only becoming a more interesting job all the time and I'm sure that that is true, but it's standing higher all the time in public regard. That, I think, nobody can challenge.

We are finding very definitely in business and industry, where I spend most of my time, or anywhere you might look for that matter, that education is, had to be, and will more increasingly be a life-long process. I know, like my own dear librarian, Marjorie Quigley, that you must be a part of the educational system; that adult education looks to you for its guidance on what people do want and what people ought to want—and they are not always the same; and it's the eternal job of adult education to try to bring them a little nearer.

Are You Necessary?

Now are you necessary, are libraries necessary? Why I had always thought that that wasn't really a question at all. And yet a very nice young man, highly technical in his way of thinking, said, "The new library is going to be so interesting you know, Mrs. Gilbreth. We are

just going to have machinery that will do everything, and the students are going to be allowed to go everywhere and get out their own books. All the librarians have to do is to put the books back on the shelves."

Human Relations, Too

I said, "Do you really think that you will be able to select the books and buy the books and catalog, and learn all about the books, and advise on the books and everything else that the librarian does on the job of human relations as well as in the technical field . . . Well, are you not going to continue to call them librarians if all they do is just put the books back on the shelf?"

And he said, "Oh, I'd be perfectly willing to call them librarians, that's fine; but that is all really that they have to do." And I thought that's an interesting concept; I'll just tuck that into my talk and see what the reaction to librarians is on this useful idea.

Books or People

Sometimes one does rather wonder as to whether librarians, primarily when they look at their job, see it as a matter of the books themselves and what happens to the books rather than what happens to the people, who, after all, are the ones where the books are going to do their job.

I remember overseas somewhere in the Orient a very beautiful library where really I had a feeling of an intruder as I went in. I was allowed to come; I was made to feel that I might stop and look and listen; I was even shown some books but it was a very definite feeling that the library existed for the conservation of the treasuring of the books.

Then I go to another small country in South America. I have great difficulty on the college campus getting into the library at all. I have to try it three times really and apparently do not have the staid grandmotherly look a person should have in trying to penetrate in. She said, "You wish to touch? It's nothing but a magazine after all and not fine vellum."

I said, "Why yes, I thought I could take it out." The idea of having this beloved treasure depart from her—I just wish I could have her see our librarian on the job whose feelings would be dreadfully hurt if you ever left the library without something in your hand, and who feels that after all her chief job is to keep her shelves as empty as she can. I just have to laugh at the various concepts going on.

Aid Scientists

Once in awhile I think even you do fail to realize that technical people and engineers and like could possibly have general interests and especially interests in the specialized arts and fields. You can very well neglect the arts and letters people if you have to; they can find their way around but do put on your very best smile and show your very best books and compliment your science and education people by making them feel they're very happy that Anne Lindbergh has a new poem or that something is done over which really would have an appeal.

Kipling First

And they do love fine things. You may have to start with Kipling; that's where I always start with my engineering students. Many of them just never realized there was a poet who knew anything about engineers. I never dissillusionize

them by telling he really wasn't an engineer but he was very observant and he loved what went on in the engineering world. When you have the Mary and Martha one and the other ones which take them into the engineering world, they decide that perhaps poetry—I call Kipling poetry; maybe you call it verse, maybe you have a worse word for what he wrote—but at any rate when they found that something of that sort is there, very gently one can carry them over and on into different fields. So that the least I say to you, from the field I represent, that libraries are very necessary and that librarians are very necessary too.

Expanding Field

Then we usually think a little bit about what lies in the whole library field and in the work of the librarian. Haven't you expanded with the years when you're willing to look at it that way? When you not only have the printed work, but you have the radio; you have television and, not welcomed as long as one might sometimes wish, records and everything that one can think of the visual arts which are becoming a part of the library and a part of the librarian's opportunity.

Job Descriptions

Job descriptions sometimes are an awful bore when you ask to have them put in. If everybody from the chairman of the Board of Trustees all the way down to the youngest page would help in writing his own concept of what he thinks his job might be, what a profitable thing it could be in looking about the future and planning the way we're going to go.

Every once in a while the question will be asked, and it's a fair one: If we do

write the job descriptions and you change a lot of the methods, won't we have to do the job description all over again all the time? My answer is yes, of course you will. If you're going to utilize what you have; if you're going to grow; if you're going to change and evaluate your change, of course you'll have to do it all the time, and like the educational process it's just something that goes on and goes on and goes on.

Time Studies

Then naturally you want to know about the when—how long do these jobs you do take? We only know a very few things really about the time element. We know that you really have to know how long it takes to do a job before you can make a schedule or calendar. You look at the schedule and you say, "When must this job be done?" And then you try it and find it takes much longer than you thought it did. There is always that insidious presence of interruptions. I often wonder if perhaps the librarian's life hasn't more interruptions than any other kind of life.

Interruptions

The only thing one can say about interruptions is that temperament has something to do with it. My husband was one of these people who hated interruptions. If he were interrupted, it took him quite awhile to wind up again and get started. That's a very valuable trait and I admire it as one only admires traits which one does not possess. I'm one of these people who crave interruptions. I just love to be interrupted. I can start anything with a fine burst of enthusiasm, but after a very short time the enthusiasm kind of begins to bog down and I begin to slow down;

and if nobody interrupts, I interrupt myself. I say to myself, "Oh, it's important I must do that telephone call." I hate to sit in one place and I hate to have to concentrate on one thing, so I just leap and run all around a little bit and scatter all sorts of things about everywhere; then I come back again and pick up joyously.

See the People

There are an awful lot of interruptions you can really do away with by sitting down and making a very careful study of what they are; how long they take; how they can be avoided; who can take over and do that sort of thing. But the only kind of interruption I feel that is really worth while you can't do anything about if it means that somebody wants to see you very much indeed—yours is a human job. There's nothing you do so important as seeing the people who want to see you.

Represent Your Library

The finest librarians I know are really people who, throughout the community, represent what their library stands for. They seem always to remember what you're interested in no matter where you meet them. In fact, they'll almost pursue you no matter how busy you are. You will have a sort of feeling I cannot let my librarian down; I cannot return that book without reading it; I must go in and have at least something intelligent to say. Probably you carry a very fascinating book under your arm and I see it as I pass you along the street and I say, "What are you reading these days?"

Maybe it isn't the one she's in the middle of but it's the one she thinks would be a very good message from the library and

so she has it along under her arm. I remember going along the street one day when our Marjorie came along and she had a book under her arm. I said, "What are you reading today, Marjorie?"

"It's Sitwell's last book about his family." Well, I confess with shame and reluctance that when you go into the technical field that you really don't keep up as much as you should. I have never heard of Sitwell, so I said I'd like to read one too.

Books Are Fascinating

The first one came over that afternoon with the mail that the library carts around to us and puts on our door steps so that you practically fall over the book with the nice little note that says if you will kindly get it back at the time set, someone else may enjoy that pleasure; or some polite way of saying, if you don't we'll probably come down and remove it from you. There before me came not only . . . just like a Gothic Cathedral with all the queer little figures in it—and finally Edith who still has me completely mystified. I don't know if I'm stupid or she is and I some times think we both are. At any rate what type of . . . experience with the librarian who wherever she goes carries something and convinces you that books are fascinating in industry and interesting and that she doesn't only feel that they are fascinating and interesting to you, but they're interesting to her.

Time and Energy

Maybe you're very much distressed about these people who are so interested in time and energy and think these management people are coming into our field and are going to spoil everything. Well, you have a perfect right to think so and I think

you ought to be on your guard. You are supposed to see that we do not destroy. But couldn't you use a little more time and energy? And, if you could, is your work so very much different from any other kind of work?

Challenge of Automation

You along with all the rest of us, of course, have the challenge of automation. What's going to happen? Do you want it to happen or are you going to welcome it? Are you going to use it or are you just going to reject it? Are you going to accept the definition of it that it's just mechanization; that it's going to take away from people; it's going to make life more hard or more difficult or more uninteresting? Now this is an appeal to you. Can't we make automation mean the kind of utilization of resources of nature that we've really developed—the resources of human nature? You're the ones who can do it. You can say to people this isn't the second industrial revolution bringing in more machines and taking away things more and more from people. Because, really, the only thing the machine takes over by and large is drudge work. Don't you think that's true?

Serving Industry

Industry tells us we're not going to need many unskilled people so there you are; it's your job to see that these people are located and develop as much skill as they have. You're going to need a lot more skilled; it's your job to try and find them. You may know, you may know better than anyone else. You may be the person on the job who sees this capacity and begins this meeting of the highest skills that we want.

We're going to have a shorter work day. Automation says to you and to me and on

SALARY STATISTICS AVAILABLE

Statistics on salaries of professional assistants in Indiana libraries serving over 100,000 population have been compiled and mailed to libraries serving over 35,000 population. This is the compilation that was not completed when the 1957 *Salary, Vacation and Sick Leave Statistics* were sent to all public libraries in May. Copies of all statistics are now available on request. Address: Hazel B. Warren, Consultant, Certification & Placement, Indiana State Library.

our job you're going to have a shorter work day and you're going to have a longer free time. If that isn't down your alley, I just don't know what is.

During the depression you worked wonderfully, we all did, trying to find things people could do in the free time. You found it wasn't free if it was wished on you, and I think you are going to have a chance to be a great help on that.

And above all, of course, I really haven't said much about it because you know it so well; no one like you knows what books and the things that are in books do mean to people all their lives. It's those intangible things, the things that books give us, the things which librarians open to us. It's those things, really, which go through the pattern of our lives. You are the custodians of something very fine and very precious and very wonderful.

Good luck to you as you continue on your way. Thank you.

Extracts of a speech delivered by Mrs. Gilbreth at the I.L.A.-I.L.T.A. Conference, French Lick Hotel, October 30, 1956. Extractions made by Modena A. Brown, Indiana State Library.

STATE COLLEGE LIBRARIES IN INDIANA

All four of the state supported Indiana college libraries have had substantial additions to their physical plants since 1950, according to the replies received from a recent survey. The survey shows a trend toward the modern and functional type of facilities with emphasis on the user's comfort. One building, that at Purdue University, is still under construction.

Purdue Hall

The Purdue Hall of Music-Memorial Union Annex, an 8½ million dollar, 6 million cubic foot, building scheduled for completion in the Spring of 1958, is physically connected to the Memorial Union and to the Library. The new building includes quarters for the Adult Education Division, student clubs, the Audio-Visual Center, an auditorium, two theaters, and four acres of new floor space for the Library.

The new library space comprises three open-shelf reading rooms (each approximately 110 feet wide by 225 feet long), an attic partly subdivided into 70 small private studies, and partly designed for book-storage. The second and third floor reading rooms will be organized on a divisional plan, one for science and technology (DC 500's and 600's), the other for social sciences, the arts, and the humanities (DC 000's through 400's and 700's through 900's).

"Purdue Bookstall"

The main floor reading room will house and service the portions of the general collections which are subject to heaviest use: reserve books, *Readers' Guide*, periodical titles, selected newspapers, college catalogs, phonograph records, fiction, and ready reference books. The "Purdue Book-

stall", a collection designed to encourage more borrowing by undergraduates, will be a special feature of this floor.

The reading rooms are connected by a three-story bridge to alternate levels of the old library's five-level stack, to be used for the overflow of books from the reading rooms. Processing and administrative offices will remain in the old building (where the Libraries will retain about one acre for use).

Features of the new reading rooms are partitioned-off rooms for typing, group-study with smoking permitted, microfilm use, special collections, a foreign student study center, and music listening. Color schemes are bright: red-orange and green-blue walls, charcoal black partitions, office interiors of light yellow, light blue and pale orange.

Ball State Teachers Library

The east wing of the Ball State Teachers College library was dedicated in October, 1955. The library addition is constructed with a skelton frame of reinforced concrete with an allowable live load of 125 pounds per square foot. Its dimensions are 83 by 138 feet and it has 11,500 square feet of floor space on each of the top three floors devoted to library facilities. The 6,350 square foot basement provides storage space and houses mechanical equipment.

Exterior walls of the library are of face brick and Indiana limestone. Most interior partitions are of a movable type of metal and glass which may be arranged to suit changes in use. Ceilings are acoustical and floors are asphalt tile except for the terrazzo corridors.

All 68 rooms and corridors are completely air-conditioned, including auto-

New Wing, Indiana State Teachers College Library

matic electro-static air filtration. The air-conditioning required drilling of a 300-foot well to obtain cooling water.

Principal library functions housed in the addition include a reserve book reading room, the technical service, graduate reading rooms, teaching materials service, periodical service, film projection rooms, classrooms for library science and offices. Corridors have display cases built into walls and special display surfaces where there are no cases.

I. S. T. C. Library

The stately library structure at Indiana

State Teachers College was put under remodeling and construction in October, 1955, and all facilities were put into use by April, 1957. Construction and remodeling costs totalled \$640,000; furnishings, an additional \$40,000.

The convertible type book storage construction of the air-conditioned wing allows for group and individual activities. A feature is the Teaching Materials Center which occupies the entire third level. The Center houses banks of listening posts, preview rooms, and a panel which controls the building communication system, radio and recording facilities, and

closed circuit and commercial television. The Periodical Reading Room is on level two.

Space for Growth

Levels four to six provide the major areas for book storage. The present collection totals almost 200,000 volumes, and there is space, ultimately, to shelve over 400,000 volumes. Included on each level four to six, are a seminar room, private and semi-private study carrels, reserved studies and a small conference room. A corridor lobby forms a passageway providing access at ground level through and into the building. The elevator and new circulation desk open on to the lobby.

Complete new plumbing, heating, lighting and ventilation systems have been installed in the original structure. The outside stairs have been removed and access is direct to the lower level where solid walls to reading rooms have been replaced by glass walls. The library science department occupies the entire balcony. There is a library science study hall, a reading room and classroom, a meeting room for Alpha Beta Alpha, a typing room, a kitchenette and an office.

Modern Furniture

Library users have access to lounge areas, acoustic typing booths, and sliding reference shelves. The furniture is colorful and functional, including apronless tables with laminated plastic tops and upholstered chairs with breathable plastics in colors harmonizing with the table tops.

The air-conditioning is a small duct, high velocity system employing high pressure diffusers through a vertical system. Temperature is regulated by a dual duct feature.

The Indiana University library reports a large stack addition to the main library building. This addition gives storage for 300,000 volumes, twenty-four faculty studies and 300 study desks for graduate students.

The next issue of the *Library Occurrent* will describe the growth of the private college libraries since 1950.

Current Additions for an Indiana Collection

(Continued from Page 59)

478p. Indiana Department of Conservation. Division of Forestry, \$5.00.

The primary object of this illustrated manual on mosses of Indiana is to simplify the determination of the species known to occur in Indiana. The distribution, as to counties, and the habitat of the various species of mosses are given, as well as a description of each. Dr. Welch is Professor of Botany at DePauw University.

Recent Reprints of Books by Indiana Authors

LORENZ SCHUMM NAMED TO STATE LIBRARY BOARD

Lorenz G. Schumm of La Porte was recently appointed to the Indiana Library and Historical Board by Governor Harold W. Handley. Mr. Schumm is vice-president of the First National Bank and Trust Company, but after office hours he is an enthusiastic and well-informed student of history. The Civil War has long been one of his special interests and he is a member of Chicago's Civil War Round-table. He is an authority on the history of northwestern Indiana and is currently serving as president of the La Porte County Historical Society. He has been a member of both the Library and Executive Committee of the Indiana Historical Society for some years. Mr. Schumm is a discriminating collector of Civil War and Indiana manuscripts, maps and books. He is presently collecting material on ante-bellum houses in La Porte County. In terms of both his vocational and avocational interests Mr. Schumm is admirably equipped

EVANSVILLE LIBRARY NEWS

The Evansville-Vanderburgh County Library is now participating in the Educational Exchange Program. In July they welcomed Miss Teodora de los Reyes as an exchange librarian from the Philippine Bureau of Public Libraries. Miss de los Reyes will remain at Evansville for one year. She is a graduate of both the liberal arts college and the library school of the Philippine Women's University in Manila. The Educational Exchange Program is sponsored by the U. S. State Department and administered by the Library of Congress.

Two interesting publications have been issued by the Evansville Library. One item is a pamphlet entitled "An Unfinished Chapter in the History of the Evansville Public Library and Vanderburgh County Public Library" by Herbert Goldhor, chief librarian. This pamphlet is a record of the many gifts of money, equipment and books the library has received since 1911 when Andrew Carnegie gave the library \$50,000.

At an Open House on May 8 the library presented each guest with an attractive brochure titled "Your Central Library Building, 1932-1957."

DISTRICT MEETING HIGHLIGHTS

A brief summary of the six programs for the spring district meetings may be found in the May issue of *Focus On Indiana Libraries*, the Indiana Library Association organ.

to make a valuable contribution to the work of the Library and Historical Board.

Mr. Schumm will replace Dr. Louis A. Warren, director emeritus of the Lincoln National Life Foundation at Fort Wayne. Dr. Warren has served on the Board with distinction since 1941.

A.L.A. KANSAS CITY MEETING

Much progress in important areas of organization activity was the result of the 76th annual conference of the American Library Association at Kansas City, Missouri, June 23 to 29. Over 3000 librarians participated in the sessions and there was a good representation from Indiana in attendance.

Rufsvold Elected

For the second consecutive year Indiana was fortunate in having a Hoosier elected second vice-president of A.L.A. Margaret I. Rufsvold, director of the Indiana University School of Library Science, will fill this office which was held last year by Harold F. Brigham, Indiana State librarian.

Two Indiana people were elected councilors for A.L.A. Herbert Goldhor, Evansville librarian, will serve for the 1957-59 term. Carolyn I. Whitenack, Purdue University, was elected for the 1957-60 term.

The Council of A.L.A. approved the report of the Special Committee on Reorganization. By this action the reorganization of the Association was formally completed. The Report established twelve divisions and approved fields of responsibility for each. Five of the divisions are type-of-library divisions and there are seven divisions based on type-of-activity.

National Library Week

A projected "back to the library" movement in the form of a National Library Week received the enthusiastic support of the Conference. The first National Library Week will be March 16-22, 1958. The

national and State A.L.A. groups will help plan National Library Week and encourage the participation of libraries and librarians in observance of the event. The theme will be "Wake Up and Read!"

In cooperation with A.L.A., National Library Week is being organized by the National Book Committee, an active, non-profit citizens group who promote the wider and wiser use of books. Alta Parks, president-elect of the Indiana Library Association, will serve as chairman of the Indiana program for National Library Week.

Evansville Recognized

The Evansville-Vanderburgh County Public Library received honorable mention in the John Cotton Dana Publicity Awards Contest for libraries in the 100,000-200,000 population class. The contest is based on scrapbooks submitted by the contestants showing a cross-section of the year's publicity.

At the opening of the first general session of the conference, President Ralph R. Shaw received a handsomely carved gavel from Judge Ora Wildermuth, Gary, in appreciation of his contributions to library service in Indiana. Mr. Shaw was librarian at the Gary Public Library from 1936 to 1940.

A surprise visitor at the conference was a genial and enthusiastic recruit to the profession, former President Harry S. Truman. Mr. Truman described the treasures in the new Truman Library.

The 1958 conference of A.L.A. will meet at San Francisco on July 13-19.

Current Additions for an Indiana Collection

Some Books and Pamphlets about Indiana or by Hoosier Authors,
Compiled by HAZEL W. HOPPER, Indiana Division, State Library

AULAIRE, INGRID AND AULAIRE, EDGAR
PARIN D'. *Abraham Lincoln*. 1957.
Doubleday, \$3.00.

Abraham Lincoln, written by the Aulaires, was the 1939 Caldecott Medal winner for the most distinguished American picture book. Here is a completely redrawn and amplified edition of the book. It is for children to the age of ten.

BURT, WILLIAM HENRY. *Mammals of the Great Lake Region*. 1957. 246p. University of Michigan, \$4.75.

Invaluable as a reference aid, this book tells of the habitat, habits and economic value of mammals of the Great Lakes area. Northern Indiana is included in the study. Dr. Burt is Professor of Zoology at the University of Michigan.

DEKRUUF, PAUL. *Man Against Insanity*. 1957. 246p. Harcourt, \$3.95.

This is the story of Dr. Jack Ferguson, who won his own way back from insanity and now works with the mentally ill, experimenting with the use of new drugs, combined with personal care and attention. He grew up in northwestern Indiana, worked as a fireman on the Monon Railroad, and, finally, at the age of forty received his M.D. degree from Indiana University. Following his graduation and a year's work as a country doctor, he was committed to an institution as a barbiturate psychotic. After his release he started life over, getting a position as a resident psychiatrist at an Indiana hospital for the insane. He later went to Traverse City, Michigan, where he is carrying on his experiments at the state hospital there.

EIFERT, VIRGINIA S. *Out of the Wilderness, Young Abe Lincoln Grows Up*. Illustrated by Manning De V. Lee. 1956. 214p. Dodd, \$3.00.

This novel is based on Abraham Lincoln's life in Kentucky and Illinois and ends with the winter of the deep snow in Illinois, 1831, when Abe was 22 years old. *Out of the Wilderness* is the third volume in Mrs. Eifert's Young Lincoln trilogy. The author is from Springfield, Illinois.

FERRIER, E. ELOISE. *Power of Love*. 1956.

179p. Vantage, \$3.00.

Miss Ferrier offers a guide to positive living through understanding of how to appreciate art, beauty, joy and usefulness, and how to attain more complete self-realization. The author manages an eighty acre farm near Ashley, Indiana, during the summer months. She is a native of Steuben County. She was graduated from Columbia College of Speech and Drama in Chicago and appeared in several New York plays.

FLOOD, EVADNA AND COFFEEN, RUTH A.
Our LaPorte; How it Began, How it Grew. 1956. 172p. Board of Education School City of LaPorte, \$2.50.

Two staff members of the LaPorte city schools compiled this history of the city for use in the schools. The book is written in story form and in a style which is attractive to elementary grade pupils. It is a fine contribution to the field of teaching of local history and could be followed to advantage in other Indiana cities where local history books written on the grade school level are scarce.

FRICK, CONSTANCE H. *Patch*. 1957. 188p. Harcourt, \$2.75.

Patch Jones liked to run just for the fun of it, but he could not take competition seriously. This story of Patch and the West High track team is another outstanding sports story by the author of *Tourney Team* and *Five Against the Odds*. The author lives in Evansville.

GOODIN, PEGGY. *Dede O'Shea*. Illustrated by Roy Doty. 1957. 187p. Dutton, \$3.50.

Eleven year old Dede O'Shea feels that she is misunderstood by her parents and snubbed by her sister, Pat, who is fourteen and permitted to use lipstick and is interested in boys. Karen, recently widowed, who lives in the family guest house, Sister Emlitia and Father Gannon, all help Dede in the struggles of growing up. It is a hilarious story told in Dede's own words. Miss Goodin spent her girlhood in Bluffton. Her book, *Clementine*, also the story of a young girl growing up, won the 1945 Avery Hopwood award.

HEPBURN, WILLIAM MURRAY, EDITOR.

Who's Who in Indiana. 1957. 248p.
Historical Records Association, Hopkinsville, Kentucky, \$15.00.

This is a ready reference book for biographical information about a selected group of contemporary Hoosiers. The editor is Librarian Emeritus, Purdue University.

LAMBERT, JANET. *Precious Day*. 1957. 192p.
Dutton, \$2.75.

Sandra Campbell, her sister, Josie, and brother, Tenny, travelled with their parents around the world for two years in an old Chinese junk. Papa was writing a book and Mama painted water colors which she sold to replenish their grocery funds. What happened when they tied up in an Atlantic seacoast port of the United States is the plot of the story.

McELFRESH, ADELINE. *Calling Doctor Jane*. 1957. 224p. Avalon, \$2.75.

Dr. Jane Langford spurned the more lucrative practice of the large cities and returned to her home town of Halesville, Indiana, to practice medicine. Jane's fiancé, Bill Latham, a young minister, had accepted a call to do missionary work in Africa and Jane found herself more and more attracted to young Dr. Hamlin, a newcomer in town. The murder of the town druggist adds the mystery element to the story. The author is a native Hoosier.

MASON, MIRIAM E. *Freddy*. Drawn by Vee Guthrie. 1957. 86p. Macmillan, \$2.00.

The Pirtle family had wanted to move to the country for a long time, but it was Freddy, the lavender rabbit, which the children won at an Easter party, that finally brought about the move. This is a book for children who have just learned to read, ages 6 to 8.

NATIONAL COUNCIL OF CHURCHES OF CHRIST IN THE U.S.A. *Churches and Church Membership in the United States*. Indiana (Series C, numbers 12 and 13). 1957. The council, 40 cents each number.

This is an enumeration and analysis of churches and church membership by counties, states and regions. Series C, number 12, includes the counties of Adams through Lawrence, and number 13 includes Madison through Whitley.

NORWOOD, FREDERICK ABBOTT. *History of*

the North Indiana Conference, 1917-1956. 1957. 331p. Conference Historical Society, \$3.00.

This history of the North Indiana Conference of the Methodist Church serves as a sequel to the volume published in 1917, *A History of the North Indiana Conference of the Methodist Episcopal Church from its Organization in 1844 to the Present* (1917) by H. N. Herrick and William W. Sweet. In the first chapter the author gives a brief resumé of the beginning of the conference and then gives a history of the Methodist Protestant Church which was not included in the earlier volume.

REMMERS, H. H. AND RADLER, D. H. *The American Teenager*. 1957. 267p.
Bobbs, \$3.75.

Since 1940 a group of social scientists at Purdue University have been taking a poll of American teenagers to get information about their problems, their attitudes and beliefs. The poll was representative of all parts of the country, of all religions and all nationalities. Teenagers from both high and low income families, whose parents were highly educated or had little schooling, were included. This study summarizes the findings of the poll giving an accurate composite of American youth—his plans, his problems, his fears, his prejudices, his beliefs and disbeliefs. Both of the authors are on the staff at Purdue University.

ROSE, ERNESTINE BRADFORD. *The Circle. The Center of Our Universe*. 1957.
p. 351-448. Indiana Historical Society, \$1.00.

The history of Monument Circle, Indianapolis, is an enlargement of a paper read by Mrs. Rose before the Indianapolis Woman's Club, February 18, 1955, on the club's eightieth anniversary. It tells about the inclusion of the Circle in the original plan of the city of Indianapolis, recalls some of the institutions which were located there and some of the interesting events and outstanding personalities that have made up its history. Mrs. Rose is a native of Indianapolis.

RUKEYSER, MURIEL. *One Life*. 1957. 330p.
Simon, \$5.00.

In a combination of poetry and prose the author relates episodes from the life of Wendell

Willkie. The purpose of the book is to interpret the meaning of a great public figure, who has already taken the dimensions of a legendary hero, against the background that produced him and the times in which he lived. The book has been recommended for large public libraries and college libraries.

SEELEY, JOHN R. AND OTHERS. *Community Chest: a Study in Philanthropy*. 1957. 593p. University of Toronto Press, \$7.50.

This is the study of the Indianapolis Community Chest. For several years prior to this study the community chest in Indianapolis had been failing to meet its goal. This survey was made to report on the specific problems in Indianapolis, but, in so doing, it has touched the aspects of voluntary giving in any average American city.

TRUEBLOOD, DAVID ELTON. *Philosophy of Religion*. 1957. 325p. Harper, \$5.00.

The purpose of this book, says Dr. Trueblood, is to expound the essentials of a philosophy which enables men and women to be both intellectually honest and sincerely devout. He discusses such subjects as the logic of religion, theistic realism and challenges to faith. Dr. Trueblood is Professor of Philosophy at Earlham College.

U.S. BUREAU OF CENSUS. *Census of Manufactures*. 1954. Indiana. (State Bulletin 113) 1957. 20p. Government Printing Office, 25 cents.

The publication gives information on the number of manufacturing establishments, number of workers, wages, hours, value of shipments and new capital expenditures. The statistics are given by counties, for cities with 10,000 inhabitants or more and by industry.

WARNER, DAVE. *Terry Brennan of Notre Dame*. 1956. 146p. Newman Press, \$2.25.

Terry Brennan experienced one of the most spectacular rises in the history of American sports when, at the age of 25, he became head football coach at Notre Dame. Here is Terry Brennan's story, his childhood in Milwaukee, his college football days and the first years of his coaching at Notre Dame.

WELCH, WINONA. *Mosses of Indiana*. 1957. (Continued on Page 54)

SHOULD A.L.A. MOVE?

The 634 Indiana members of the American Library Association have been asked to vote on the proposal to move A.L.A. Headquarters from Chicago to Washington, D. C. The prevailing opinion among librarians in the Midwest is that the Headquarters should remain in this area.

On June 24 the A.L.A. Council voted 82 to 34 for moving the Headquarters to Washington. Sixty-five Councilors did not answer the roll call vote. A petition to set aside this action of the Council was submitted on June 27. One fourth of the A.L.A. members, approximately 5,000, must vote in order for this petition to be sustained or defeated.

The ballot for this mail vote is included in the September A.L.A. *Bulletin*. October 15 has been set as the deadline for returns. All Indiana librarians are urged to vote on this important matter.

CERTIFICATION RULES

The Indiana Library Certification Board announces that the new *Official Rules and Regulations*, 1957, became effective August 1, 1957. These Rules and Regulations, which supersede and replace the old *Rules and Regulations*, 1948, have been published and distributed to all Indiana libraries.

With the inauguration of the new Rules, the Certification Board will seek to give libraries special help in determining the application of the several grades of new certificates to positions below the level of Head Librarian which are classified as professional. It is not necessary to replace old certificates with new. Present certificates remain fully valid and will be so honored.

The Library Certification Board will be glad to answer any questions.

VITAL STATISTICS

Amanda Browning, recently appointed head of the **BRAZIL PUBLIC LIBRARY**, resigned on July 1. **Mrs. Joanne Baldridge**, assistant, has been appointed to succeed her.

Donna Mae Babcock has been appointed acting librarian of the **CARMEL PUBLIC LIBRARY** to succeed **Mrs. Pauline Jessup** who resigned July 31.

Mrs. Pauline Stoner Schomp has been named assistant librarian of the **PEABODY FREE LIBRARY**, Columbia City. She will succeed **Mrs. Fred Nei** who resigned after 12 years of service.

Mrs. Rosamond Sample was appointed acting librarian of the **CORYDON PUBLIC LIBRARY** effective July 1. She succeeds **Mrs. Georgia S. Fisher**, librarian since 1917.

Mrs. Mary R. Kane, assistant on the staff of the **CRAWFORDSVILLE PUBLIC LIBRARY** since 1945, retired the end of July.

Mrs. Ida Davenport is retiring as assistant in the **EAST CHICAGO PUBLIC LIBRARY** following 43 years of service.

Mrs. Alice B. Rice, librarian at the Frankton branch of the **ELWOOD PUBLIC LIBRARY**, has retired after 11 years of service. She will be succeeded by **Mrs. Robert Ash**.

Joan Collett, former instructor in the Library Science Department of Rosary College, River Forest, Illinois, has been appointed head of the extension department of the **LAKE COUNTY PUBLIC LIBRARY**, Gary. She will succeed **Rose Vainstein** who resigned January 31 to become library consultant in the library Services Branch in the Office of Education, Washington, D. C.

Dr. Herbert L. Heller, professor of education at DePauw University, has been working during June and July as Acquisitions Field Worker for the **INDIANA STATE LIBRARY**. He has been collecting manuscripts and valuable historical items, especially for the Archives and Indiana Divisions.

THE INDIANAPOLIS PUBLIC LIBRARY had two retirements on June 30. **Mabel C. Warren** retired after 42 years of service, 37 of them having been in the Order Division. **Jessie Logan** retired after 36 years of service. Eighteen of these years she served as branch librarian at Broad Ripple.

Thurmyl Gosnell was appointed librarian of the **MANCHESTER COLLEGE LIBRARY**, North Manchester, beginning September 1.

Mrs. Evelyn Culp has been appointed head of the **NAPPANEE PUBLIC LIBRARY**. She will succeed **Mrs. Julia Milne**.

Mrs. Clara Trueblood recently resigned as librarian of the **WINKLEPLECK MEMORIAL LIBRARY**, Odon. **Candace Ledgerwood**, formerly librarian at Odon, has been appointed to succeed her.

Margaret Jacob has been appointed acting librarian at **JOYCE PUBLIC LIBRARY**, Orland, to succeed **Mrs. Bertice Brown**.

Philip T. Hamilton, librarian of the **SEYMOUR PUBLIC LIBRARY** the past three years, has resigned to become librarian at **KOKOMO PUBLIC LIBRARY** August 1. He will succeed **Mrs. Aileen S. Weiland**, librarian since 1941. **Mrs. Beth Powers**, children's librarian of the

Indiana State Library Manuscript Collection

The Manuscript Collection of the Indiana State Library is a part of the State Historical Collection and is housed in the vault of the Indiana Division. It is separate from the large collection of official state papers which is in the Archives Division of the library. This is not a complete list of the library's holdings, but includes the larger collections and some of the smaller ones which have been selected for listing because of special historical interest.

ABORN, MARY J. Collection, 1815-1900. Pioneer life in Warren County; Wabash and Erie Canal construction; correspondence of E. F. Lucas, general superintendent of the canal.

BAILLY, JOSEPH. Papers, 1794-1836. Joseph Bailly was the first white settler in the Calumet region. Collection consists of ledgers and account books of fur trade with Indians around Michilimackinac and Northwestern Indiana. 42 ledgers and day books.

BEELER, JOSEPH. Papers, 1827-1877. Letters, diaries and account books giving information about economic conditions, health conditions in Marion County; early toll roads; Minutes of the Horse Thief Detective Association of West Newton, 1864-1873.

BELLAMY, FLAVIUS C. Papers, 1861-1864. Diary and letters while in Army of the Potomac. Co. A, 3rd Regiment, Indiana Volunteers. 200 items.

BRANHAM, DAVID C. Papers, 1812-1896. Superintendent of Madison and Indianapolis Railroad; legislator. Collection has information on railroad building, political issues, Civil War.

BRICK, ABRAHAM L. Papers, 1850-1950. South Bend. Congressman, 1899-1908. Scrapbooks, diaries, letters; letters are for the most part those written to his daughter.

BROWN, AUSTIN H. Papers, 1830-1901. Publisher of the *Indiana State Sentinel*; prominent in Indiana politics; collection includes economic, political, social material; Indianapolis theatricals; letters from students at Indiana Asbury College (now DePauw).

BUTLER, AMOS. Papers, 1818-1916. Papers relating to work with state charities and

prison reform; early Brookville history; business papers of Brookville and Metamora Hydraulic Co. 1866-1897; Western Association of Writers. 700 items.

CHITTENDEN, GEORGE F. Papers, 1837-1914. Mostly Civil War letters of Dr. Chittenden, surgeon 16th Regiment; political issues; health conditions at Anderson.

CLARKE, GRACE JULIAN. Papers, 1857-1936. Suffrage movement, activities of Indiana Federation of Women's Clubs, 1910-17; Woman's Franchise League and various peace organizations 1918-21. 550 items.

COBURN, JOHN. Papers, 1850-1904. Lawyer, Civil War officer, U.S. Congressman; political and economic material, natural gas boom, Civil War. 125 items.

COLFAX, SCHUYLER. Papers, 1778-1926. South Bend newspaper publisher; member of Congress; Vice-President of the United States. Letters regarding personal business, political questions, Colfax estate papers. 300 items.

COTTMAN, GEORGE S. Collection, 1857-1937. Literary letters from Indiana authors; Western Association of Writers; publication of the *Indiana Magazine of History*. 300 items.

CROSIER, ADAM. Papers, 1840-1902. Medical practice; economic conditions; Civil War; political questions. 257 items.

DEAM, CHARLES. Papers, 1889-1952. State Forester. Author of *Trees of Indiana*, *Grasses of Indiana* and *Shrubs of Indiana*; scientific and political questions. 8,500 items.

DUFOUR COLLECTION, 1801-1876. Articles and original papers dealing with the early history of Vevay and Switzerland county.

DUNN, JACOB PIATT. Papers, Manuscript

Indian material; notebooks on Indian languages; Indian dictionaries; texts of stories; notes and correspondence; speeches and historical articles.

EMBREE, ELISHA AND LUCIUS C. Papers, 1786-1933. Princeton. Elisha Embree, lawyer, Judge of Circuit Court of Gibson County, Congressman; Lucius Embree, lawyer, active in Indiana Republican party, member of Pueblo Land Commission. Legal papers; letters relating to Indiana State Bank, LaPorte Land Office, railroads, coal mining, politics. 3,700 items.

EWING, W. G. AND G. W. Papers, 1818-1881. Fort Wayne, Logansport, Peru and the Middle West. Letters and account books regarding fur trade; Indian claims; real estate; internal improvements; Civil War; California gold rush; Indiana politics. The Ewings had branches of their trading business in Michigan, Iowa, Kansas, Minnesota, Illinois, Missouri, Indiana, and Wisconsin. 30,000 items.

FOULKE, WILLIAM DUDLEY. Papers, 1849-1931. Information regarding Civil Service reform; Progressive movement; League to Enforce Peace; League of Nations; woman suffrage. 600 items.

HAMILTON, ALLEN. Papers, 1817-1899. Fort Wayne. Banker, Indian Agent, member of Constitutional Convention, 1850. Letters regarding banking questions; legislation, Constitutional Convention, 1851; trade with Indians; Indian claims; land purchases and sales; Wabash and Erie Canal. Estate papers of William Wells and John B. Richardville. 6,000 items.

HANNA, AGNES McCULLOCH. Collection. Papers of Hugh H. Hanna, Indianapolis businessman: Indianapolis Monetary Convention, 1897-98; Papers and diaries of Reverend Oscar McCulloch, pastor of Plymouth Congregational Church and active in the fields of social and charities work.

HARRISON, BENJAMIN. Papers, 1874-1900. Business papers; letters to his law partner and attorney general, W. H. H. Miller, 1892-1900.

HAYS, WILL H., 1896-1954. Chairman Indiana Republican State Central Committee,

1914-18 and Republican National Committee 1918-1921; Postmaster General, 1921-22; Picture Producers and Distributors of America, 1922-1945. Includes letters concerning Indiana and national political issues, 1896-1954. Collection is being processed and is not yet available for use by the public.

HELM, THOMAS, 1862-1888. Logansport. Weather diaries. 26 volumes.

HERSHEY, JEVE, 1873-1922. Diaries; civil engineer at Vincennes; gives economic conditions, election notes. 47 volumes.

HOLMAN, WILLIAM S. Papers, 1838-1899. Aurora. Congressman 1859-1865, 1867-1877, 1881-1895. Letters from constituents regarding political issues. 140 items.

HOVEY, EDMUND A. Papers, 1831-1877. Letters written to his family while in Fountain County as a minister for the American Home Missionary Society; a professor at Wabash College, and as an agent for the college. 125 items.

HOWE, FRANCES. Papers, 1817-1919. Settlement of the estate of Joseph Bailly; student life at St. Mary of the Woods, 1855-1868. 460 items.

JONES, WILLIAM F. Papers, 1827-1890. Hartford City-Muncie. Legislator, Mayor of Muncie. Director of Fort Wayne and Southern Railroad. Collection concerns mostly railroad activities during the 1840's and 1850's. 150 items.

FOUR COLLEGES RECEIVE LILLY GRANTS

The libraries of four Indiana institutions of higher learning have been selected to receive financial awards provided by the Lilly Endowment, Inc., Indianapolis. The grants, ranging in amount from \$2,000 to \$3,500, are to be used for the expansion of library services to students.

The schools receiving the grants are these: Ball State Teachers College, Muncie; DePauw University, Greencastle; Goshen College, Goshen; Purdue University, Lafayette. The schools were selected by the Committee on Foundation Grants of the Association of College and Reference Libraries, a Division of the American Library Association.

The purpose of the grants is to "promote the more extensive and imaginative use of library resources by undergraduate students."
